fulfil all the relevant characteristics of the constituent elements and the standard configurations of the scaffolding system, declared by the manufacturer in Control Manual no. 1049717/2019 and are in accordance with the requirements specified in the reference standards

EN 12810-1:2003, EN 12811-1:2003.

ICECON CERT carried out verifications regarding the characteristic performances (load capacity, positional stability, safety in operation and durability) of a scaffolding system representative for this products family, performed the evaluation of the applied factory production control. ICECON CERT shall perform the continous surveillance of product conformity by monitoring the factory production control.

Applicable certification scheme: 3, according to EN ISO/CEI 17067:2013.

This certificate has been issued on **30th of June 2023** and will remain valid until **29th of June 2026**, as long as the requirements specified in the reference standards, the constructive solution, the characteristic performances of the scaffolding system constituent elements, the intended use, the manufacturing process and the applied factory production control are not significantly modified, unless it is suspended or withdrawn by the certification body.
